INDEPENDENT AUDITORS' REPORT

To the Shareholders of Arch Biopartners Inc.

We have audited the accompanying consolidated financial statements of Arch Biopartners Inc., which comprise the consolidated balance sheets as at September 30, 2014 and September 30, 2013 and the consolidated statements of loss and cash flows for the years ended September 30, 2014 and September 30, 2013, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with international financial reporting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Arch Biopartners Inc. as at September 30, 2014 and September 30, 2013 and the results of its operations and its cash flows for the years then ended in accordance with international financial reporting standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 2 c) - Basis of Preparation in the financial statements which indicates that the entity has an accumulated deficit of \$8,638,808 as at September 30, 2014. For the years ended September 31, 2014 and September 31, 2013, the Company had net losses of \$398,507 and \$189,950 respectively. These conditions, along with other matters as set forth in Note 2, indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

1. DESCRIPTION OF OPERATIONS

Arch Biopartners Inc. (the Company) is incorporated under the Business Corporation Act (Ontario) with continuance under the CBCA. The Company is a biotechnology firm made up of four subsidiaries: Arch Biotech Inc., Arch Biophysics Inc., Arch Cancer Therapeutics Inc., and Arch Bio Ohio Inc.. Throughout the years ending September 30, 2014 and September 30, 2013 three of the subsidiaries had been active including, Arch Biotech Inc., Arch Biophysics Inc., and Arch Cancer Therapeutics Inc.. Arch Bio Ohio Inc. has been inactive since it was incorporated on August 22, 2014.

Arch Biopartners Inc. is a portfolio based biotechnology company established to develop new products and technology for unmet medical needs.

At present, the Company has four technologies in its development pipeline:

- MetaMx™ - Novel synthetic molecules designed to target brain tumor initiating cells and invasive glioma cells; the focus of Arch Cancer Therapeutics Inc..
- MetaBlok™ - A new drug candidate for the potential treatment of sepsis and cancer metastasis; the focus of Arch Cancer Therapeutics Inc..
- Borg - Peptide-solid surface interface; the focus of Arch Biophysics Inc.; and
- Novel treatments for chronic kidney and bowel diseases caused by non-infectious inflammation; the focus of Arch Biotech Inc.

The Company owns, or has exclusive licence on intellectual property emanating from these programs listed above. Continuing product development is ongoing at various third party facilities. Both the University of Calgary and the University of Alberta became shareholders of the Company upon formation of Arch Biopartners Inc. on May 7, 2010.

The current balance sheet of the Company does not show a build up of material assets such as buildings and equipment, as any facilities used for continuing research have been owned by third parties. The company has not accumulated any material liabilities to date as a result of its research activities. The corporate headquarters are located in Toronto, Ontario.

In August 2014, the Company incorporated Arch Bio Ohio Inc., a U.S. based corporation incorporated in the State of Delaware. As of September 30, 2014 Arch Bio Ohio Inc. has not performed any operations to note. Total expenses for the entity for the year were the incorporation costs.

The Company entered into a one year option agreement with the University of Cincinnati (UC) in March 2014 to exclusively license the commercial rights to a U.S Patent for treating bacterial respiratory infections using a formulation involving acidified nitrite; the potential focus of Arch Bio Ohio Inc..

In September 2010, the Company became two-thirds owner of Colorado Cancer Therapeutics, a U.S. based corporation incorporated in the State of Delaware. On August 28, 2014, the Company completely divested its ownership in CCT for a nominal value. At the time of its divestiture, other than amounts owing to Arch Biopartners, CCT had no assets or liabilities. See Note 7 for further information on the divestiture of this investment.

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

2. BASIS OF PREPARATION

a) Statement of Compliance

These financial statements of the Company for the year ending September 30, 2014 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These consolidated financial statements were authorized for issue by the Board of Directors on January 28, 2015.

b) Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis.

The consolidated financial statements are presented in Canadian dollars, which is also the Company's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

c) Going Concern of Operations

The Company is in the process of performing further research and development, and has not yet determined whether costs incurred are economically recoverable. The Company's continuing operations are dependent upon any one of:

1. the existence of economically recoverable medical or industrial solutions;
2. the ability of the Company to obtain the necessary financing to complete the research; or
3. future profitable production from, or proceeds from the disposition of intellectual property.

Although there are no assurances that management's plan will be realized, management believes the Company will be able to secure the necessary financing to continue operations into the future. The financial statements do not include any adjustments to the recoverability and classification of recorded assets, or the amounts of, and classification of liabilities that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material.

d) Basis of Consolidation

Effective May 7, 2010 the Company completed a transaction with Foccini International Inc., Arch Biotech Inc., 1495628 Alberta Ltd. and 1502440 Alberta Ltd. This transaction was accounted for as a RTO as the control of the Company was acquired by the former management of Arch Biotech Inc. In connection to this transaction, the Company's name was changed to Arch Biopartners Inc. These consolidated financial statements include the accounts of the Company and its subsidiaries from May 7, 2010.

Arch Bio Ohio Inc. is considered to be an integrated foreign subsidiary and is consolidated using the temporal method as described in Note 3.

Colorado Cancer Therapeutics ("CCT") was considered to be an integrated foreign subsidiary and was consolidated using the temporal method as described in Note 3.

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

3. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment. The financial statements have, in management's opinion, been properly prepared within the reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

Foreign currency transactions

Foreign currency accounts are translated into Canadian dollars as follows:

At the transaction date, each asset, liability, revenue and expense denominated in a foreign currency is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year-end date, unsettled monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at the year-end date and the related translation differences are recognized in net income.

Non-monetary assets and liabilities that are measured at historical cost are translated into Canadian dollars by using the exchange rate in effect at the date of the initial transaction and are not subsequently restated.

Temporal Method of Consolidating Foreign Subsidiaries:

Monetary assets and liabilities are translated at year end using the year end exchange rate. Non-monetary assets are translated at the rate of exchange prevailing at the date of transaction. Revenues and expenses are translated at the average rates of exchange during the year, except for amortization, which is translated at the same rate as the related asset.

Loss per share

The Company uses the treasury stock method to calculate earnings (loss) per share. Basic earnings (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period. To calculate diluted earnings per share, all options and warrants whose average exercise price is less than or equal to the average share price for the year are assumed to be exercised. Also under this method, certain shares considered contingently issuable, such as escrowed shares subject to release based on performance criteria, are excluded from the calculation of weighted average common shares. For the year ended September 30, 2014, potentially dilutive common shares (relating to outstanding options) totaling 250,000 (September 30, 2013 - 250,000) were not included in the computation of loss per share because their effect was anti-dilutive. Therefore, diluted loss per share is the same as basic loss per share.

Revenue recognition

Revenue and cost recoveries on the sales, assignment and transfer of rights of patents are recorded in the period in which the agreement relates.

Interest income is recognized as earned.

(continues)

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Patent fees

The Company has expensed all costs incurred with the review of patentability of intellectual property. Patent fees paid for approved patent applications are expensed, since recoverability is uncertain. Future patent costs may be capitalized if future recoverability is readily estimable.

Financial instruments

Financial Assets

Financial assets are classified into one of the following categories based on the purpose for which the asset was acquired. All transactions related to financial instruments are recorded on a trade date basis. The Company's accounting policy for each category is as follows:

Loans and Receivables

These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue and subsequently carried at amortized cost, using the effective interest rate method, less any impairment losses. Amortized cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in the profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Fair value through profit or loss assets

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Fair value through profit or loss assets are measured at fair value with changes in those fair values recognized in the statement of comprehensive loss. Transaction costs are expensed when incurred.

Impairment on Financial Assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired, if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets.

(continues)

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

Financial Liabilities

Financial liabilities are classified as other financial liabilities, based on the purpose for which the liability was incurred, and comprise trade payables and accrued liabilities. These liabilities are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carrying in the statement of financial position. Interest expense in this context includes initial transaction costs and premiums payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of the period which are unpaid. Trade payable amounts are unsecured and are usually paid within one month of recognition.

Share-based payments

Where equity-settled share options are awarded to employees, the fair value of the options at the date of grant is charged to the statement of comprehensive loss/income over the vesting period. Performance vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options that eventually vest. Non-vesting conditions and market vesting conditions are factored into the fair value of the options granted.

Where the terms and conditions of options are modified before they vest, any increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of comprehensive loss/income over the remaining vesting period.

Where equity instruments are granted to employees, they are recorded at the fair value of the equity instrument granted at the grant date. The grant date fair value is recognized in comprehensive loss/income over the vesting period, described as the period during which all the vesting conditions are to be satisfied.

Where equity instruments are granted to non-employees, they are recorded at the fair value of the goods or services received in the statement of comprehensive loss/income, unless they are related to the issuance of shares, in which case they are recorded as a reduction of share capital.

When the value of goods or services received in exchange for the share-based payment cannot be reliably estimated, the fair value is measured by use of a valuation model. The expected life used in the model is adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

All equity-settled share-based payments are reflected in contributed surplus, until exercised. Upon exercise, the shares are issued from treasury and the amount reflected in contributed surplus is credited to share capital, adjusted for any consideration paid.

Where a grant of options is cancelled or settled during the vesting period, excluding forfeitures when vesting conditions are not satisfied, the Company immediately accounts for the cancellation as an acceleration of vesting and recognizes the amount that otherwise would have been recognized for services received over the remainder of the vesting period. Any payment made to the employee on the cancellation is accounted for as the repurchase of an equity interest except to the extent the payment exceeds the fair value of the equity instrument granted, measured at the repurchase date. Any such excess is recognized as an expense.

(continues)

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

Standards, amendments and interpretations not yet effective

The following new standards, amendments and interpretations, that have not been early adopted in these financial statements, are not expected to have an effect on the company's future results and financial position:

Amendments to IFRS 9: Financial Instruments (Effective for periods beginning on or after January 1, 2015)

Amendments to IFRS 15: Revenue from Contracts with Customers (Effective for periods beginning on or after January 1, 2017)

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only; or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements within the next financial year are discussed below:

i) Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

ii) Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 10.

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

5. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The company is exposed through its operations to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous years unless otherwise stated in the note.

General Objectives, Policies and Processes:

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function. The Board of Directors receives monthly reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of interest rate risk and currency risk.

Interest Rate Risk:

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any borrowings. Interest rate risk is limited to potential decreases on the interest rate offered on cash and cash equivalents held with chartered Canadian financial institutions. Had the interest rate been +/- 1% higher/lower during the year ended September 30, 2014 the Company's operations for the year would have changed by \$150.

Currency Risk:

Currency risk is the risk to the company's earnings that arise from fluctuations of foreign exchange rates and the degree of volatility of those rates. The Company is exposed to foreign currency exchange risk on cash and accounts payable and accrued liabilities. Had the currency rate been +/- 5% higher/lower at September 30, 2014, the resulting change to the net loss would have been \$11,360.

(continues)

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

5. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT *(continued)*

b) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash. The Company limits exposure to credit risk by maintaining its cash with large financial institutions. The Company's credit risk is also attributable to its receivables. The amounts disclosed in the balance sheet are net of allowances for bad debts, estimated by the Company's management based on prior experience and their assessment of the current economic environment. The Company believes the credit risk of its receivables is limited due to the fact that the amounts owing, for which no allowance for bad debts was recorded, consists of reimbursements from the National Research Council.

c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate cash and restricted cash balances. The Company continuously monitors both actual and forecasted cash flows and matches the maturity profile of financial assets and liabilities.

As at September 30, 2014, the Company has a cash balance of \$365,113 (2013 - \$25,594) to settle current liabilities due in twelve months or less of \$58,902 (2013 - \$66,048). Management seeks additional financing through the issuance of equity instruments to continue its operations, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Determination of Fair Value:

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The consolidated balance sheet carrying amounts for cash, accounts receivable and accounts payable and accrued liabilities approximate fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

	September 30, 2014		September 30, 2013	
	Carrying amount	Fair value	Carrying amount	Fair value
Cash	\$ 365,113	\$ 365,113	\$ 25,594	\$ 25,594
Accounts receivable from the National Research Council	34,125	34,125	-	-
Goods and services taxes receivable	6,553	6,553	11,231	11,231
Accounts payable and accrued liabilities	(58,902)	(58,902)	(66,048)	(66,048)
	<u>\$ 346,889</u>	<u>\$ 346,889</u>	<u>\$ (29,223)</u>	<u>\$ (29,223)</u>

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

6. AMOUNTS RECEIVABLE FROM THE NATIONAL RESEARCH COUNCIL CANADA

For the year ended September 30, 2014:

The Company has entered into a Contribution Agreement with National Research Council Canada (NRC), whereby the Company can receive up to a maximum of \$91,030 in reimbursements for specified costs.

NRC agreed to reimburse the Company for costs related to the "Macroscale Characterization of Bio-organic Metal Surfaces" project as follows:

- 80% of supported Salary Costs (Excluding benefits, incentives and bonuses);
- 50% of supported Contractor Fees.

During the year ended September 30, 2014, the Company received \$17,000 (2013 - \$NIL) in reimbursements and has recorded an additional \$34,125 in amounts receivable from NRC.

For the year ended September 30, 2013:

The Company had entered into a Contribution Agreement with National Research Council Canada (NRC), whereby the Company could have received up to a maximum of \$107,000 in reimbursements for specified costs.

NRC agreed to reimburse the Company for costs related to the "Targeting Brain Tumour Disease Reservoirs" project as follows:

- 100% of supported Salary Costs (Excluding benefits, incentives and bonuses);
- 75% of supported Contractor Fees.

During the year ended September 30, 2014, the Company received \$NIL (2013 - \$37,689) in reimbursements from NRC.

7. COLORADO CANCER THERAPEUTICS

Non-controlling interest assets have arisen on the accumulated losses incurred in Colorado Cancer Therapeutics, a company owned two-thirds by Arch Biopartners Inc. Based on the fact that Colorado Cancer Therapeutics has not generated revenue to date, and based on the number of variables in determining the value of any potential recovery, management had historically valued the non-controlling interest assets at a nominal value of \$1 and had recorded any resulting change in value for each quarter in the consolidated statement of loss.

Historically, Colorado Cancer Therapeutics ("CCT") had incurred expenses relating to an agreement with the University of Colorado that gave CCT the option to license certain patents in the area of cancer drugs. No expenditures relating to the arrangement between CCT and the University of Colorado were incurred during the period between October 1, 2012 and September 30, 2014 because management decided not to exercise or extend the option to license the underlying patents. Due to the fact that there were no future plans to continue operations in Colorado, on August 28, 2014 management opted to sell their shares in CCT to one of the scientists on the project for a nominal amount.

Amounts owing from CCT, for expenses paid on their behalf by Arch Biopartners Inc. in prior years, were treated as costs of disposition of the investment, resulting in a loss on disposal; however the deficit position of Colorado Cancer Therapeutic was treated as an increase to equity, resulting in an overall change to equity of \$11.

Notes to Consolidated Financial Statements
Year Ended September 30, 2014

8. PATENTS

As at September 30, 2014 it was difficult to determine the value and the future recoverability of patents owned by the Company. The Company has chosen to take a conservative approach, and expense all costs relating to patents. The total patent fee expense reflected in the statement of loss relates to professional fees incurred to obtain and file patents. Future patent costs may be capitalized if future recoverability is readily estimable.

9. DUE TO SHAREHOLDER

The amount reflected as due to shareholder is payable to a director of the company. \$2,805 of this balance does not bear interest or have any terms of repayment. The remaining amount of this balance bears interest at the Canadian prime lending rate plus 1%.

During the year ended September 30, 2014, interest expense of \$15,132 (2013 - \$15,019) has been recorded as a result of this loan. During the year, \$58,000 of the loan was repaid to the shareholder.

10. SHARE CAPITAL

a) Details are as follows:

Authorized:

Unlimited Common voting shares

	# of shares	Amount
Issued:		
Issued and fully paid, common shares		
Balance, October 1, 2012	47,760,179	\$ 7,636,704

10. SHARE CAPITAL *(continued)*

The Company closed a private placement on March 25, 2014. The Company issued 557,000 Units at a price of \$0.28 per Unit, for gross total proceeds of \$155,960. Each Unit comprises of one common share and one common share purchase warrant. Each warrant allows the holder to purchase an additional common share at \$0.50 during the 24 month period following the close of the private placement. The proceeds will be used for the Company's working capital and general corporate purposes. The common shares and any common shares issued from the exercise of warrants will be subject to a hold period of 4 months from the closing date of March 25, 2014.

The Company closed a private placement on February 25, 2014. The Company issued 817,500 Units at a price of \$0.28 per Unit, for gross total proceeds of \$228,900. Each Unit comprises of one common share and one common share purchase warrant. Each warrant allows the holder to purchase an additional common share at \$0.50 during the 24 month period following the close of the private placement. The proceeds will be used for the Company's working capital and general corporate purposes. The common shares and any common shares issued from the exercise of warrants will be subject to a hold period of 4 months from the closing date of February 25, 2014. Included in this placement is a \$25,200 loan that was repaid by issuing 90,000 Units.

The Company closed off the first tranche of private placement on August 6, 2013. The Company issued 300,000 Units at a price of \$0.25 per Unit, for gross total proceeds of \$75,000. Each unit comprises of one common share and one common share purchase warrant. Each warrant allows the holder to purchase an additional common share at \$0.50 during the 24 month period following the close of the private placement. The proceeds will be used for the Company's working capital and general corporate purposes. The common shares and any common shares issued from the exercise of warrants will be subject to a hold period of 4 months from the closing date.

On August 20, 2013, the Company announced an increase to the first tranche of private placement which closed on August 6, 2013. The Company issued an additional 100,000 Units at a price of \$0.25 per Unit, for gross total proceeds of \$25,000. Each unit comprises of one common share and one common share purchase warrant. Each warrant allows the holder to purchase an additional common share at \$0.50 during the 24 month period following the close of the private placement. The proceeds will be used for the Company's working capital and general corporate purposes. The common shares and any common shares issued from the exercise of warrants will be subject to a hold period of 4 months from the closing date.

On January 4, 2013, 100,000 outstanding stock options were exercised for 100,000 common shares for total proceeds of \$20,000.

The Company did not pay finder's fees for any of the above transactions.

The Company has a discretionary stock option plan under which the Company may grant options to its directors, officers, employees and consultants. The option plan is a rolling plan whereby the maximum number of common shares that may be reserved for issuance under the plan is a rolling amount fixed at 10% of the issued and outstanding common shares of the Company from time to time with no one Optionee have shares reserved for issuance in excess of 5% of the outstanding number of shares in any 12 month period. The options granted under the plan are valid for a period not to exceed five years from the date of their grant and may be subject to certain vesting conditions as determined by the Board of Directors. The options are exercisable at the price determined by the Company which must not be less than the last closing price of the listed shares of the Company before the date of their grant, less any applicable discount.

11. RELATED PARTY TRANSACTIONS

The CEO, several principal scientists and directors have significant share holdings at this time that align their interests with those of all shareholders. Due to the Corporation's early stage of development and small size of the Corporation's management team and board, the Board's Nominating and Compensation Committee has maintained the Corporation's recent practice of not compensating executives or board members, other than the share based payments noted above in Note 10. As this compensation is not readily measurable, these expenses and the related services revenue have not been recorded. For the current year ended September 30, 2014 there have been no such transactions, nor were there any in the previous fiscal year.

During the year ended September 30, 2014 the Company paid one of its Directors for Professional Fees expenses totalling \$1,000.

12. RECOVERY OF INDUSTRY PARTNERSHIP CONTRIBUTIONS

The Company had agreed to be an industry partner of an Auto21 project titled "Enhancing the corrosion resistance of Mg alloys by optimum incorporation of rare earth elements and the use of a green bio-organic-metal coating for automotive appliances". The Company had agreed to contribute \$20,000 per year to the project which started April 1, 2012 and was to be completed by March 31, 2014.

Final deliverables under the project were not received by the Company by the completion date of March 31, 2014. Management does not believe they have any obligations owing under the incomplete project. As a result, the \$35,000 previously accrued as payable for this project were reversed and accounted for as a recovery in the current period.

13. COMMITMENTS

The Company agreed to be an industry partner for an Alberta Innovates' Collaborative Research and Innovation Opportunities ("CRIO") project entitled "Development of New Imaging Agents and Therapeutic Platforms for Improving Clinical Outcomes for Brain Tumour Patients". The Company has agreed to incur a minimum of \$50,000 in expenditures per year, over a three year period from April 1, 2013 to March 31, 2016, as an industry partner for the CRIO project. The Company's contribution includes incurring the costs of filing patents and hiring professionals to provide consulting advice to prepare the technology for a human trial. The Company has incurred all required expenditures relating to this project to date.

14. CAPITAL DISCLOSURES

The Company's objectives when managing capital are to maintain a strong capital base in order to:

1. Advance the Company's corporate strategies to create long-term value for its stakeholders;
2. Ensure compliance with the covenants of any applicable credit facility and other financing facilities used from time to time.

The Company monitors its capital and capital structure on an ongoing basis to ensure it is sufficient to achieve the Company's short-term and long-term strategic objectives. Management primarily funds the Company's research by issuing share capital, rather than using other capital sources that require fixed repayments of principal and interest. The Company closely watches its cash balances. During the year ended September 30, 2014, \$760,200 (2013 - \$120,000) in net cash was received on the issuance of shares. The balance of current assets as at September 30, 2014 was \$405,791 (2013 - \$36,826). There are presently no formal capital requirements with which the Company has not complied.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate. There were no changes in the Company's approach to capital management during the year ended September 30, 2014.

15. INCOME TAXES

The difference between tax expense for the year and the expected income taxes based on the statutory tax rate arises as follows:

	<u>2014</u>	<u>2013</u>
Statutory tax rates	26.15 %	26.37 %
Loss before income taxes	<u>\$ (398,507)</u>	<u>\$ (189,950)</u>
Expected income tax recovery	\$ (104,210)	\$ (50,090)
Increase (decrease) resulting from:		
Expense adjustments	998	-
Loss on disposal of assets	14,932	-
Patent expenses added back	41,062	15,005
Cumulative eligible capital deduction	(6,467)	(4,674)
Share issue cost	(2,502)	(2,522)
Capital cost allowance	(21)	(28)
Non-capital loss carried forward	<u>56,208</u>	<u>42,309</u>
Effective tax expense	<u>\$ -</u>	<u>\$ -</u>

The nature and tax effect of the temporary differences giving rise to the deferred tax assets and liabilities at September 30, 2014 and 2013 are summarized below:

	<u>October 1, 2013</u>	<u>Recognized in net income</u>	<u>Expired as at September 30, 2014</u>	<u>September 30, 2014</u>
Non-capital losses carried forward	\$ 2,109,257	\$ 213,308	\$ (683,542)	\$ 1,639,023
Unrecognized deferred tax assets	(2,109,257)	(213,308)	683,542	(1,639,023)
Deferred tax assets	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
	<u>October 1, 2012</u>	<u>Recognized in net income</u>	<u>Recognized in equity</u>	<u>September 30, 2013</u>
Non-capital losses carried forward	\$ 1,948,813	\$ 160,444	\$ -	\$ 2,109,257
Unrecognized deferred tax assets	(1,948,813)	(160,444)	-	(2,109,257)
Deferred tax assets	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

The Company has incurred losses of \$1,639,023 for tax purposes which are available to reduce future taxable income. Such benefits will be recorded as an adjustment to the tax provision in the year realized. The losses will expire as follows:

2015	\$ 179,315
2026	215,112
2027	90,277
2028	138,852
2029	81,405
Thereafter	<u>934,062</u>
	<u>\$ 1,639,023</u>

ARCH BIOPARTNERS INC.
Notes to Consolidated Financial Statements
Year Ended September 30, 2014

16. SUBSEQUENT EVENTS

On October 24, 2014 the Company announced that they had granted 1,200,000 incentive stock options to its directors, officers, and consultants pursuant to its 2014 stock option plan. Each stock option is exercisable into a common share of the company for a period of five years. A total of 900,000 options exercisable at \$0.30 per share; 100,000 are exercisable at \$0.40 per share and 200,000 are exercisable at \$0.50 per share.

On December 1, 2014 the Company entered into a Sponsorship Agreement with Euro Pacific Canada Inc. that obliges Europac to deliver a Sponsor Report to the TSXV. The Company has agreed to pay a lump sum of \$25,000 upon the signing of the agreement and 71,500 common shares within 10 days of delivery of the final report to the TSXV that will be held in escrow for one year from the date of issue.

The Company applied to be listed on the TSX. As of the date of these financial statements, the Company received conditional approval from the TSX Venture Exchange for the listing of its common shares on the TSXV. Final approval is subject to the Company complying with certain TSXV listing conditions by February 7, 2015. It is management's opinion that conditions will be met by that time.

On January 14, 2015 the Company extended the term of the outstanding shareholder's demand promissory notes. The shareholder's loan has been extended to January 5, 2017 at a fixed rate of 6% per annum paid semi-annually. The principal together with any accrued interest will become due and will be paid in full on demand so long as such payment does not reduce the Company's ability to complete its product development work plan for any given 12 month period from date of repayment.

On January 12, 2015 the Company raised \$658,525 by closing the first tranche of the non-brokered private placement. Pursuant to the terms of the private placement, Arch issued 1,881,500 Units at a price of \$0.35 per Unit. On January 26, 2015 the Company raised an additional \$90,650 by closing the second tranche of the non-brokered private placement. Pursuant to the terms of the private placement, Arch agreed to issue an additional 259,000 Units at a price of \$0.35 per Unit, including 116,000 Units which will be settling on January 30, 2015. Each Unit consists of one common share of the Company and one common share purchase Warrant. Each Warrant entitles the holder to purchase one common share of the Company at an exercise price of \$0.70 per common share until 5:00PM EST on January 13, 2017. All securities issued in connection with this offering are subject to a statutory hold period expiring on May 13, 2015 and May 26, 2015 respectively. As at January 26, 2015 the Company has 53,115,679 common shares outstanding.

17. COMPARATIVE FIGURES

Some of the comparative figures have been reclassified to conform to the current year's presentation.
